

ECONtroller

Air quality measuring system

WHAT IS ECONROLLER?

The OMS-i ECONtroller is a revolutionary air quality measuring system able to detect both, indoor and outdoor, the levels of different parameters.

It is an exceptionally versatile device, which can be customized according to the specific needs of each customer.

Its cost-accuracy relation makes of OMS-I ECONtroller a unique tool in the market.

ADVANTAGES

- Air quality control
- Real time data
- Healthy environment guaranteed
- Security increase 24/7
- BIG DATA analytics
- Easy installation

COMPETITIVE CHARACTERISTICS

- Fully customizable. Sensors and communication
- User friendly dashboard
- 100% autonomous
- Effective accuracy
- Indoor and outdoor system
- Able to connect to 3rd devices
- Adjustable data capture interval
- Cost efficient
- Quality and sturdiness

TECHNICAL DESCRIPTION

DEVICE

Available sensors

CO2
CO
NO2
O3
Noise
PM1, PM2.5, PM10
Temperature
Humidity
Atmospheric pressure

Available communications

Additional characteristics

IP65
Charger included

DASHBOARD

User friendly
Graphics and maps
Alerts configuration
